Bag Accumulator Delivery System for Variable Size Machines

The H. G. Weber Bag Accumulator System increases production by simplifying the off-handling process.

- ◆ Delivers precise stacks of bags to the operator for checking and packing.
- ◆ Larger bag accumulation area helps to minimize personnel needed in the off-handling process, reducing labor costs.
- ◆ Maximum production speeds can be maintained because of improved off-handling efficiency.
- ◆ Accumulator unit works in combination with the Stand-up Delivery System.
- ◆ Can be retrofit to existing H.G. Weber machines and most competitive machines.

Contact the H.G. Weber Service Department at 920-894-2342.
