EXTENDED FINGER TIPS

We have extended our drum finger tips to provide for easier set up when making bags within the minimum face range on an H.G. Weber bag machine. It is now possible to gain an additional 1/4 inch adjustment (1/8 inch on each side).

- Shaded area shows the extended area over standard drum finger tips.
- Cast steel construction.
- Can be used as direct replacement for standard tips.
 - **K462C** can replace K654
 - **K463C** can replace K655
- For model #5 and #7 Weber S.O.S. bag machines.
