

## **SERVICE BULLETIN**

00-7

# **Add Enclosed Hot Melt Systems to Your Bag Machine**

### *Nordson Seam Seal System*

- High flow rate for high-speed packaging
- Uniform hot melt beads
- Handles a wide range of hot melt materials
- RTD's provide precise temperature control in the reservoir, hoses and guns

*Enclosed hot melt seam seal*

*Hot melt pump*

*Hot melt bottom paste system*

### *Nordson Bottom Paste System*

- Precise glue patterns—no glue applied if bag is absent
- Consistent beads of glue
- Instant bond—no curing time required
- Easy pattern changes

*Contact the H.G. Weber Service Department at 920-894-2342 for information to retrofit your bag machine.*
