NEW SINGLE WEB ROLLSTAND WITH AUTO TENSIONING

- Consistent web tension from a maximum diameter to a minimum diameter paper roll.
- Reduce waste by running paper closer to core.
- Run out-of-round paper rolls.
- Improves bag machine operation by making:
 - slitter length consistent,
 - interply paste dot location consistent,
 - consistent cutoff registration, reducing center gripper misses.
- Tension system works in conjunction with a Montalvo air brake capable of operation with 1 to 4 air puck assemblies for more braking options.
- Run a wider range of paper materials.
- Does not scuff delicate print jobs or coated materials.
